I started out on this journey to bring my vision to life. I picked up a pen and pad to tell the world what I haved. I moved to Alanta to persue a career with my group at age 14. We preformed with local artist for a couple of years. I move back to Decatur Il, at 16 and continue to write and produce for local artists. I received a call from a friend one day and was told to expect a call from his uncle in Oakland, California who had his own production company and label. I spoke to Ed and he ask me to come out to do some tracks for his artist. After we me met, we decided to create On the Grind. A collection of soulful hip hop. Now at 19, this is my best work ever and hope that you agree. Thanks for your support,, K 2
