Unpredictably unique female vocals soothe the soul and stimulate the mind to conjure up thoughts of everything from beachy fortresses and lazy days on a haystack to ritzy lounges and memories of love both new old. 12 MP3 Songs POP: Pop, LATIN: Latin Pop Details: Lauricia is a self-driven artist who is constantly creating everything from the songs she sings to the stories behind her music videos. Music was her first language and since then she has been living a life filled with creativity in many different areas. Something that makes Lauricia so unique and different is that she loves to connect with her audience in their native tongues. The songs that she writes in an array of different languages and her ability to play such a wide variety of instruments, keep her fans' interest levels high. She wants to also keep surprising her fans by taking them to a different part of the world with each album she releases. This time it is Spain; where will she take us next? Lauricia's passion for music is apparent in her long history of being involved with it in so many forms and styles. She also has an intense passion for languages and for her to have been able to combine these two things into one is quite an accomplishment in and of itself. She draws her inspiration to write her songs from not only her own experiences, but also the ones of her fans. She keeps in close contact with them and when they go through tough times, she goes through them also and puts some of these feelings into her songs. 'My fans are my inspiration.', she claims. So, there is no question about the music really being for her fans out there in the world. At the moment Lauricia is looking forward to her tours to not only to share her music with her fans but to also connect with them and see the countries where they live. She is also hoping to practice her languages and take in some of the beautiful views as well, like she did when she went to Almera, Spain. Lauricia once stated that, 'I feel I am at my best when I am doing anything associated with my music and sharing it with others'. Tags: pop
