Dramatic, Intense, Seductive, Strong, Country Originals styled by the heart in a traditional and progressive mix 9 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Country Blues Details: The songs in Pick of the Centuries were selected from the writings of Ruby McPherson, whose compilations of 100 entries are called First Century, Second Century and Third Century. She will soon be finished with her Fourth Century. The 'First Century' of song lyrics has been published as a book and the link where you can buy it is at the bottom of her personal website which is posted on this page. Ruby is outspoken, vivacious, empathic, emotional, analytical, aggressive, energetic and determined. Ruby has lived a life of endless learning experiences and constant changes. From being over in a dark corner pouting on the edge with anger, stress, or loneliness a bunch of times to being in the spotlight shining a lot of times, Ruby found a way to combine her hostilities and difficulties with her outgoing, articulate, and loving but very matter of fact philosophical nature. This CD is an example of a writer/songstress for the common man/woman in these modern times. Ruby was singing at the early age of four and has been influenced by the great female country artists of yesterday and today. Ruby loves performing their works but yearns to share her songs with the world. If you like country, you're gonna really appreciate this seasoned artist.
