

# Mp3 Sadie Krawczyk - Take Out Special

[DOWNLOAD HERE](#)

Acoustic-based sound, rich lyrics, jazzy voice. Fun for hours - that is if you put the cd on repeat. 5 MP3 Songs POP: Today's Top 40, POP: Folky Pop Details: So here's my bio - My full name is Sadie Krawczyk (yes, I did actually try to get a last name that uses every consonant). I've been married for almost 3 years to a guy I met at Furman University. We were Young Life leaders together. His name is Brian, and he's an amazing man. We have a daughter, Eden, who is a year old. She's so much fun! I'm from Mississippi but now live in Atlanta, GA. I started playing guitar when I was 16, and I haven't been able to stop. I began to think about God for the first time in 8th grade; no big deal really because I didn't think of him as real until about 11th grade. That's when I really began to be so intrigued and surprised by this Jesus guy and all He did here on earth. I've been changed for the better through getting to know Him more, and as I get to know what He thinks of me more and more. I love music, it gives so much to memories, to moments, to my emotions, to hopes. Music can take me places like a book can. I guess that's why I am so grateful to be a part of music in other's lives. I mean, it's just a privilege to give someone a song. Anyway, this is who I am. If you want to know anything else, check out my website - [sadiemusic](#)- Thanks.
