

# Mp3 Stanley Johnson - Revelations Received From God

[DOWNLOAD HERE](#)

The style of songs on this album include new millenium contempoary gospel, reggae, jazz, gospel hip-hop, easy listening, r&b, and traditional gospel. 12 MP3 Songs GOSPEL: Contemporary Gospel, EASY LISTENING: Love Songs Details: I am a one man band. If you are wondering how I came up with the name for this work, it was derived from a definition for faith given to me by my wife which is the following: faith is your God-given ability to bring the impossible to pass at your command based upon the revelations you have received from God. These songs are all songs that came into my mind complete, in an instant of time, which I brought forth by utilizing the above stated method. This album project is dedicated to believers everywhere who love God. The album also ncludes a 6 panel booklet with the lyrics to all of the songs to make it easier for the listener to sing these songs of praise and worship right along with me. -Stanley Johnson My name is Doctor Daphine Brown. I am a medical doctor who takes care of elderly and disabled patients in their homes (i.e. I do medical house calls). By the grace of God, I have been able to use this album to help many of my patients feel better. Through listening to the entire album with several patients, I have discovered that although each person greatly enjoyed the entire album, they would always have a favorite song that would help them with whatever they were going through. For instance, if my patient(s) struggled to walk, they would often be drawn to the song, "Everything Is Going To Be Alright"; or if they were rejoicing over great victory in their lives they might get extra excited over "Shouting Until The Morning Comes". Often the young at heart are seen enjoying "God I'm Yours" as a favorite song. These are just a few examples of how each song is beautiful, wonderful, and a hit, in and of itself. This gospel album, "Revelations Received From God" brings great joy, comfort and peace, not only to my patients and family members, but also to myself and everyone else that I personally know of who have listened to it. I strongly recommend that you purchase this CD immediately

for yourself and love ones and be blessed by it. -Daphine Brown, M.D.
