For the first time ever, you can now get resell rights to this hot new software! That's right, sell it and keep 100 of the profits. A message with video and sound has been proven many times to be more effective than print advertising alone. Studies have shown that 6 times as many people will respond to a message that is made with video (NIH Research). Streaming video also provides appeal on an emotional level, which can give the viewer a clearer understanding of your product or service. A "live" touch on your web site appeals to all the senses of your visitor, creating a closer connection between you and you visitor. If you put a personal presentation on your web site, the effect is like being right there in person with your client. As a result, your web site is likely to increase its sales by up to 600 by just adding streaming video. Over half the US Internet population views some form of online streaming video content A recent study from ComScore Networks showed that 56 of Americans view streaming video online, with the average

consumer viewing 73 minutes of streaming video content per month. This research confirms that streaming video is now part of the Web experience for a broad base of consumers. Streaming video is changing advertising on the Web, by allowing richer, more emotive connections between brands and consumers. Online video is uniquely positioned to break through clutter, changing media preferences, and other obstacles facing advertisers today. As a result, streaming video commands more attention and response, thereby bringing better results to online marketing. Tags: mrr
