You guys always come up with real cool tunes.. Great job guys." (KMP) "This is an extremely polished and radio ready track from these Austrian pop rockers! It's not all Scorpion (sound)bites in the eastern Alps, no, no, no. With it's rock roots firmly in the school of songwriting from 70s pop rock maestros this is a great little easy rocker firmly stamped with pop hit. Snappy hooks in a big wide chorus, catchy guitar riffage and a song you can sing along too. It's loaded with optimism in the "life's on the up" lyrics, giving just the necessary electric charge to get through the day. Hey, forget the coffee, let's spin some Aquarian Age!" (Rippingtracksabout Run) "Great stuff Aquarian Age. I like this; I do have to say that 'Down to the Top' has been one of the few songs I go to, to uplift me at times. It's a favourite." (Vesa)
