Indie/alternative country/rock 4 MP3 Songs COUNTRY: Alt-Country, ROCK: Southern Rock Details: Raised in Dallas, this multi-instrumentalist grew up with the sweet sounds of Willie Nelson, Johnny Cash, and Patsy Cline, but could not ignore his youthful penchant for rebellious indie rock, and so, for years, he has been cultivating a unique relationship between foot-stomping indie pop and heart aching country poems. You should expect to hear songs that make you dance mixed with lyrics that tug on your heart. Danny has been writing songs since he was 13 years old, and has crafted a unique pathos to his playing style and singing voice. This red head, freckled faced young talent gives an emotional and intimate live show, telling stories through fast paced rock 'n' roll and slow solo performances, just he and the crowd. Danny Malone is new and different, but, as is evident throughout his music, conveys a great amount of respect for his predecessors. Then again, singing songs about heartache, drinking, fighting, and the southern heat is the only thing I know how to do, Danny maintains. And hell keep on doing it.
