This collection of powerful, uplifting lyrics set to contemporary thumping rhythm will definitely move you. The lyrical genius of this work is paralleled only by the meticulous excellence of the vocal and music arrangements. 16 MP3 Songs GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel Details: The ministry of Dr. Williams extends far beyond the confines of the church walls and reaches to the medical, academic and scientific arenas. Holding a Ph.D. in Pharmacology, Dr. Williams is an accomplished researcher and well-respected leader among his colleagues. He is currently training in Otolaryngology-Head Neck Surgery at the University of Cincinnati, where he also obtained his medical doctorate. He plans to specialize in laryngology and professional voice upon completion of his training. As a gifted songwriter and dynamic exhorter, Dr. Williams recognizes the gravity of the call on his life and embraces the challenges that precede the manifestation. Regarding his call, Dr. Williams asserts: "For well over a decade, I've understood that God has called me to lead His people in a place of worship where the focus is totally on the sovereignty and excellence of the Almighty God! It is in this place where miracles are wrought -- sickness and diseases are healed, shackles of bondage are loosed and the dead are literally quickened. This collection of songs reflect my experiences in coming to know God more intimately as He has been preparing me to operate in arenas of intense and very real spiritual activity. I know that as the Holy Spirit begins to demonstrate such signs and wonders, there will be critics who will attempt to refute its authenticity. Here my response will simply be, 'It is the hand of the Lord - worship Him in the Beauty of Holiness.'"
