

Mp3 Eileen Carr - Pax

[DOWNLOAD HERE](#)

Transport yourself to the heavens where you will be surrounded by angel voices... 11 MP3 Songs NEW AGE: Meditation, CLASSICAL: New Age Details: Just imagine the beauty of Latin Hymns failing to reach the ears of the 21st century. Possible? yes, but with the diligence and talent of musicians such as the lovely Eileen Carr, the threat of the music falling into obscurity has been postponed for at least one more generation. Provoking, inspirational, and entrancing, Eileen Carr's voice replicated the solemn beauty and haunting resonance of music centuries old, while using modern day instrumental technology arranged by Terry Sweet to enhance the beauty of her voice and the music itself. The music she sings so beautifully has been released on the CD "PAX" which means "peace" in Latin, the mother tongue of all romantic languages. Carr, no stranger to music as a whole outside her genre, has had a successful career in pop, theater, and commercials. After taking time off to raise her family she felt that while a comeback was inevitable, she wished to do something off the well-traveled path, something that would make a lasting, meaningful impression on the world of music. Wishing to bring back peace to what she considered a hectic, stochastic world, she chose her medium as a way "to bring back peace to the world." Choose to listen to the brilliance of what she has done, you will easily see she has succeeded beyond expectation.
