Organic Ambient Psy-dub for Sonic Soul Travel 9 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Down Tempo Details: Brewing up sounds in his secret lab for over 10 years, perfecting and evolving an organic psychedelic dubby signature, Kalpataru Tree is currently rising up as a refreshing alternative to the current flooding of standard synthesized sound. Seamlessly weaving organic bass and guitar into creatively inspired digital production, the result is a sonic journey deep into the endless realms of imagination. A strong believer in the magic of music, and using inspiration from nature and the mystical dimensions of human experience, KP Tree hopes to touch listeners in the same way that he has been touched. KP trees live act, which always includes live bass, has also featured the activating vocal talents of voice Shamaness Drea Drury. KP tree is currently planning a summer tour up and down the west coast of North America, including the How Weird Street Fair in San Francisco, the Emerge-n-see festival in Oregon and Shambhala in the magical mountainous foresty realms of British Columbia.
