Conscious, funky nu-world jazz/global soul based on African/Caribbean/Latin influences. 11 MP3 Songs
URBAN/R&B: Contemporary urban, JAZZ: World Fusion Details: For over 10 years the Klub Mundi project, the creative realization of percussionist Neville Murray has been maturing. In collaboration with multi-instrumentalist Dai Pritchard, Murray has delivered up Voices, a rhythmically mature and sensitive first album. These 11 tracks represent a fusion of Pritchard's Jazz/classical influences and Murray's strong African, Caribbean polyrhythms. Out of this mix are percussive flavors of global soul. The songs have a lyrical content, which carries a universal message for truth and justice. Voices is a refreshing arrival on the contemporary music scene-a provocative debut to delight.
