An eclectic cross-genre mix. Incorporating Groove and technical style. 17 MP3 Songs ROCK: Progressive Rock, ROCK: Modern Rock Details: Leak is an alternative rock project based in Orange county California. The group consists of Michael M. Miller (Keyboards Vocals), Thomas Corsaut (Guitars Vocals), Craig Williams (Bass Vocals) and Steve Symington (Percussion Vocals). The group has been described as sounding like "Phish without the hippie," "Everything that No Doubt is not," or "A Les Claypool side project--without Les Claypool." These strange analogies come from listeners that have been continually challenged and surprised from one song to the next by LEAK. The music itself is a cross genre blend of influences, an eclectic mixture ranging anywhere from Pop to Metal then beyond. Many songs individually can be heard to have multiple combinations of styles within them. The band members arrange their music to satisfy both the listeners and themselves as performers. LEAK consists of four musical devotees that are determined to create music that is as hypnotic and entertaining as the great music of previous artists--the timeless artists--that have influenced and inspired LEAK to become the performers they are today. Leaks' devotion to their art goes beyond merely writing and performing music. In order to bring their sound to as many listeners as possible they decided to be as self sufficient as possible. They have done this in various ways such as creating their own record label, running their own web site, self promotion and self production of their current album "After" Leak hopes that you enjoy their music and looks forward to performing for you in the future.
