Details: Born and raised in Connecticut, Michael K (Keith) Johnson now resides in Florida. After receiving his initial training as a young child and becoming serious as a teenager, he went on to study music at North Texas University. Shortly after, Michael K went on to study orchestration and arranging under Don Sebesky and later studied voice with pop music icon Michael Bolton. MK's extensive musical background is easily discernable from the very start of his new record. The CD Moment In Time is Michael Ks first full length solo effort for the public in general. Most of the tracks were written, arranged, produced, and performed entirely by this gifted artist. It was only a matter of time before the man from K would make his mark with a refreshing mix of pop, jazz, and soul music delivered in a way thats sorely missing in todays modern music. Its back with a passion thanks to this talented musician! With the guitar as Michaels principle instrument, and strong proficiency on piano, bass, and saxophone, Michael K has always shown the unique ability to combine the latest Hip-hop, Jazz, Rock, and R&B grooves into a smooth classic feel thats reminiscent of the exciting days of vinyl when we hung on to every note. Thats Michael K today! Michaels songs have had a profound influence on music lovers of all generations and from all walks of life. His warm tenor sound is easy to recognize and his composition style has established its own standard. Michael Ks music embodies the art of songwriting in its most fundamental form. He has been at it for many years transforming his innermost thoughts into lyrics, melodies, and harmonies that comfort and reassure listeners of all ages and backgrounds. We hope you capture the feeling and pleasure of this wonderful contemporary artist. Its infectious! Tags: pop
