Details: REBEL SYNDICATE Biographies WHO IS REBEL SYNDICATE? Rebel Syndicate is a collection of musicians and performers that have come together to form something they believe is greater than the sum of its parts. They are a band, to be sure, but they are not a live juke box. Rebel Syndicate is a show! The group is combination of two separate bands. Trial By Stone was a Tallahassee favorite and featured Randy and Jesse. The Caverns Road Band was a well known Jackson county group made up of John, Rob, and Doc. Both groups played mixtures of southern and classic rock with a large dose of country, as well as a selection of original material. But they were limited by the need for further instrumentation and so Jesse, who had played with both groups, suggested they get together. From the very first night they performed together, it just felt natural. The guys share a common love of music and people, and a common goal to entertain the folks. Since that night, the band has been playing, rehearsing, and recording constantly The guys know how to show folks a good time.
