

# Mp3 World Ambient Symphony - Jazz: World Fusion

[DOWNLOAD HERE](#)

Loop based Ambient Improv Jazz. Music that challenges your mind, and speaks to your soul. 7 MP3 Songs JAZZ: World Fusion, LATIN: Flamenco Details: Imagine an ensemble that explores the harmonic boundries of Jazz, Blues, and Rock while incorporating the rhythmic sophistication of Hip-Hop, and World Music. Imagine that the fusion of these diverse harmonic, rhythmic, and textural concepts can be achieved through spontaneous improvisation by a quartet consisting of guitar, bass, percussion, and trumpet. That is the vision of World Ambient Symphony. A song by W.A.S. draws from the improvisational foundation of Jazz. A drum loop is often used as a canvas while each instrument begins to paint colors and textures giving shape and meaning to the picture. One moment the trumpet can be the melodic voice and then suddenly the texture changes and it becomes an ostinato. This is just one of many roles that each voice can assume during performance. How can a group that thrives on the spontaneity of improvisation record a studio album? A recording of W.A.S. is an audio snapshot of one day in the studio. It is but a small taste of a larger feast of musical colors
