Automate Your Start Pages! Start pages are becoming an increasingly popular form of generating traffic. The concept is simple. You agree to click on a network of websites in exchange for your own website being put into the network for others to view. Don't strain the ligaments in your fingers while clicking your day away! Use "Start Page Robot" and let the software do all the clicking for you! With Start Page Robot, you can enter an UNLIMITED amount of start pages, limit the number of times a particular page is opened, open pages randomly, upload lists of start pages, and more!
