[DOWNLOAD HERE](#)

As a thank you, I would like to share with you the exact method I used to make a lot of money (considering I'm still a newbie) in only 6 weeks using this method to secure offline cash clients. The 6 week timeline includes my learning curve (from scratch), marketing of my services, securing my offline clients, and actual completion of those SEO services to my local business owners. The attached pdf goes over the exact method that I have found great success with thus far. I have spent many hours experimenting with my technique and wanted to share it with all of you.
