

Common Infectious Diseases Of Insects In Culture

[DOWNLOAD HERE](#)

Preface - INTRODUCTION - Handbook objectives - Reared insects in biotechnology programs - Importance of insect infection diseases - Economic impact of insects - Classification of insect diseases - CHAPTER 1. PRINCIPAL GROUP OF INFECTIOUS INSECT DISEASES - 1.1. Viral diseases - A. Typical nucleopolyhedroses- A.1. Morphology of the pathogens - A.2. External signs and symptoms of disease - A.3. Pathomorphology of disease - A.4. Hosts - B. Nuclear polyhedrosis of the intestinal epithelium - B.1. Morphology of the pathogen - B.2. External signs and symptoms of disease - B.3. Pathomorphology of disease - B.4. Hosts - C. Granuloses - C.1. Morphology of the pathogens - C.2. External signs and symptoms of disease - C.3. Pathomorphology of disease - C.4. Hosts - D. Cytoplasmic polyhedrosis - D.1. Morphology of the pathogens - D.2. External signs and symptoms of disease - D.3. Pathomorphology of disease - D.4. Hosts - E. Poxvirus diseases - E.1. Morphology of the pathogens - E.2. External signs and symptoms of disease - E.3. Pathomorphology of disease - E.4. Hosts - F. Iridescent viral diseases- F.1. Morphology of the pathogens - F.2. External signs and symptoms of disease - F.3. Pathomorphology of disease - F.4. Hosts - 1.2. Bacterial diseases - A. Bacterioses caused by *Bacillus thuringiensis* and *B. cereus* - A.1. Morphology of the pathogens - A.2. External signs and symptoms of disease - A.3. Pathomorphology of disease - A.4. Hosts - B. Milky diseases caused by the bacteria *Bacillus popilliae* & *Bacillus lentimorbus* - B.1. Morphology of the pathogens - B.2. External signs and symptoms of disease - B.3. Pathomorphology of diseases - B.4. Hosts - C. *Pseudomonadaceae* & *Enterobacteriaceae* infections - 1.3 Rickettsial diseases - A.1. Morphology of the pathogens - A.2. External signs and symptoms of disease - A.3. Pathomorphology of disease - A.4. Hosts - 1.4. Fungal diseases - A. Entomophthoralean infections - A.1. Morphology of the pathogens - A.2. External signs and symptoms of disease - A.3. Pathomorphology of disease - A.4. Hosts - B. Muscardine diseases- B.1. Morphology of the pathogens - B.2. External signs and symptoms of disease - B.3. Pathomorphology of disease - B.4. Hosts - C. Microsporidia diseases - C.1. Morphology of the pathogens - C.2. External signs and symptoms of disease - C.3. Pathomorphology of disease - C.4. Hosts - 1.5. Diseases of protozoan origin - A. Amebiases of insects - A.1. Morphology of the pathogens - A.2. External signs and symptoms

of disease - A.3. Pathomorphology of disease - A.4. Hosts - B. Gregarious of insects - B.1. Morphology of the pathogens - B.2. External signs and symptoms of disease - B.3. Pathomorphology of disease B.4. Hosts- C. Coccidiosis of insects - C.1. Morphology of the pathogens - C.2. External signs and symptoms of disease - C.3. Pathomorphology of disease - C.4. Hosts - 1.6. Mixed infections - CHAPTER 2. MANIFESTATION OF INFECTION DISEASES IN INSECT CULTURES - CHAPTER 3. METHODS OF PRACTICAL DIAGNOSTIC OF DISEASES - 3.1.Preliminary diagnosis - 3.2.Processing of pathological material for analyses - 3.3.Microscopic examination of pathological material - CHAPTER 4. PROPHYLACTICS OF INFECTIOUS DISEASES IN INSECT CULTURES- 4.1. Selection of animals for establishment of healthy laboratory colonies - 4.2. Insect sanitation and therapy of disease - 4.3. Sanitary measures in rearing facilities - GENERAL REFERENCES EAN/ISBN : 9789400718906 Publisher(s): Springer, Berlin, Springer Netherlands Discussed keywords: Infektion / Infektionskrankheiten, Insekten Format: ePub/PDF Author(s): Gouli, Vladimir - Gouli, Svetlana - Marcelino, Jose
