"Discover How To Quickly & Easily Maximize Your Email Opt-Ins, Have Your Visitors Tell You Exactly What They Want To Buy From You - And - How To Create Great-Looking Minisites With Surprising Ease..." These five videos come to a total playing time of 88 minutes. Here's what each video is about:

Video One (12 Minutes) The first video in this series talks you through a detailed introduction of Squeeze Pages and Survey Pages, and also talks you through a number of very successful examples. Video Two (16 Minutes) Here you'll discover a remarkably quick and easy way to build great looking and fully functional minisites in less than 20 minutes! These are the exact minisite building tactics a surprising number of millionaire marketers use every day. Video Three (19 Minutes) This video will talk you through in detail how to create a Squeeze Page step-by-step, and it will also talk you through the advanced 'website building' functionality of the popular Aweber system so that you can create a brand new Squeeze Page in less than two minutes - plus - you'll discover an amazingly easy way to boost your email opt-ins. Video Four (14 Minutes) Here I talk you through how to create Squeeze Pages using the popular Get Response email management service and how to fix the issues the Get Response system can add to

your website. Video Five (27 Minutes) Here I'll talk you through exactly how to build a survey page that sucks all the information you want from your visitors. And importantly - these survey pages are fully under your control and on your website (unlike all the survey services out there) and I'll show you how to get every single response sent straight to your email inbox. For PC's Only - Not For Mac I must tell you that this eBook only works (to my knowledge) on PC's. If your computer is running Microsoft Windows, you won't have any trouble at all viewing this eBook successfully. However, if you're on a Mac you'll more than likely have trouble viewing it.
