

Mp3 Chris Cain - Hall Of Shame

It might seem unfair to most of the musicians on this planet that so much natural skill, ability, and creative energy should be found in just one person. But with Chris Cain you get it all, and then some. 12 MP3 Songs BLUES: Electric Blues, JAZZ: Smooth Jazz Details: This is now the sixth solo release I have produced by Chris Cain, not to mention many other projects where he was a guest, and I continue to be in awe of his incredible talent. As a guitarist/singer Chris has been praised by mentors like Albert King and peers like Robben Ford. As a song writer Chris is one of those unique individuals who has more of a problem stopping the flow of ideas than he does getting started, and he has written all the songs on the release. Chris also demonstrates his talents on key boards on this CD. There is a feel he has for his music that no one else can completely get and it seemed to me that on a few of these songs his approach to the keys was what was needed. Hall Of Shame is a good example of what I mean. With every new Chris Cain CD you get to hear another side of this amazing artist and this one does not disappoint.
