Old West Style Cowboy Music Easy listening story songs 13 MP3 Songs COUNTRY: Country Folk, GOSPEL: Country Gospel Details: My name is Eddy Harrison. I have been singing cowboy and gospel music and writing songs for over fifty years. I have worked with various artists over the years including Stuart Hamblen and Cliffie Stone and have published with greats like Snuff Garrett and Red Steagall. This album is the second CD since 2000 and is a collection of songs that I wrote and some old time favorites and a couple of newer contemporary country favorites. The title song Waltz of the Rainbows is a song written especially about my wife of 48 years. Echoes From the Canyon and Roscoe Dinwitty Drove the Chuckwagon are new cowboy songs inspired by some of the Cowboy music heard at the Western Music Association gatherings and various shows that are becoming more and more popular throughout the country and are being played on European radio, Internet radio, and Special once a week FM radio shows. The Two Gospel songs are two of my favorites. I hope this album touches some hearts and revives some real precious memories. Eddy Harrison
