Details: If you want to listen to the whole track go to my website glennrogers.net This was my first CD and I wanted to compose and play all the music on it. It really was a labour of love, and strongly influenced by the record label ECM ie composers like Ralph Towner, Pat Metheny and John McLaughlin to name a few. Ants Feet is perfect for meditation, yoga or relaxation. This CD was quite personal experience for me it was a time when I was breaking away from my classical and conservatorium training. I recorded it over 2 years and I still think it is one of my best CD's. I now have five CDs and my new CD has just come out 'Inside In'. It is acoustic indian fusion and is available on CD baby or just go to 'Audio/CD' on glennrogersfor more info.
