

Mp3 Mccarthy / Buescher - Stuck On The Roundabout

[DOWNLOAD HERE](#)

A mix of country folk, Americana and standard singer/songwriter folk reaching as far back as the 70s. 12 MP3 Songs COUNTRY: Traditional Country, EASY LISTENING: American Popular Song Details: 'Stuck on the Roundabout' is McCarthy's second CD about Englewood Florida. He pokes fun at those who fought over the building of the Roundabout in town, but specifically the way we are over building, and destroying our small towns with condos and super stores! If you have ever heard of the Red Tide, you will love the tune devoted to that! More great fiddle playing by David Buescher really perks up this CD with a couple jigs and reels. This CD covers a lot of musical territory. Well worth the time to listen. McCarthy and Buescher have been a duo for over three years now, and Playing live music is their true love, so when they are not working in the studio on their own material or backing up some of the many great artists in the area, they can be found playing from large concerts to the local Pizza place. Where ever they play, you can bet that at least two people are having a great time!! Buy this one, stick in you car CD and enjoy the ride. When you get back, drop them a note. These guys really do love to hear what you think of their songs, and you can expect to hear back from them too. Real live music, for real people. That is what it is all about!
