We call our music "Avant 'Tard." It's an amalgam of rock, ska, pop, metal and bluegrass designed to tickle the funny bone and shake the booty. Live Nigel is technically devastating and requires years of intensive therapy to forget. 13 MP3 Songs POP: Quirky, ROCK: Ska Details: From the bottom of our bottoms, we appreciate you perusing our page. Much blood, sweat and smegma went into the making of this fine album. No detail was left unattended to, including feeding our engineer his favorite: squirrel meat doused in yogurt. Please know that we also have a myspace page: myspace.com/nigelmustafa Become our friend, won't you? Again, bless your heart for listening and know that The Avant 'Tard movement starts and ends with you. Pickles
