An "unplugged" collection of P.W.'s music - "Still Voices" bears the purity and honesty that he is known for. 8 MP3 Songs GOSPEL: Contemporary Gospel, FOLK: Folk Pop Details: "Still Voices" - the Story I have known about loss for some time now but I never knew it came without prejudice- without much taste for status, time and place. It seems to keep company with just about everyone I have known. And what surprises me is that those who know it (as I do) do not wear their scars as I do. All day long I walk around in a world full of beautiful people, the hungry and aching, the bitter and wanting - and I have no sense of what brought them this far. It has been my shame to see that I simply don't have the eyes to recognize the life in others, the need in others. And what's worse is that I don't afford the time to change how I see. My time on the road has been invaluable; it has been a gift to me to be able to see and more importantly hear Gods heart for myself and others. For I believe God speaks to us in quiet places. And it is in those places of rest that we are unable to rob ourselves of passion and character- where good is not good enough and where better is the enemy of His best. I believe this is where we find ourselves whole again. If we could just walk away for a moment, seek His face and listen for the voice that rises in the silence I think we would hear God speak as He would to a little child. "Come close, little one. I have the world to give you. Sit with me for a while for there is much to say". So I pray as I age and my body fades that I would seek Him and enjoy my Father forever. I pray I see the gift I have been given and I find His heart for me. And I pray my eyes would change and I would see those around me in need of His voice.
