Practical Sigil Magic, by Frater U D, Europe's best-known ceremonial magician and contemporary occult author, is widely regarded as the definitive guide to the topic. Unavailable for a number of years and long sought-after by ceremonial magicians, mages, and hermetic practitioners, this classic work is now available once again. Sigil magic is one of the most efficient and economical of magical disciplines. It can be performed without complicated rituals or paraphernalia, is independent of philosophical and dogmatic premises, and can be learned easily and quickly. Most important, it will give even beginners the immediate chance to convince themselves of its power and their own abilities. This classic reference work will provide magicians from novice to adept with instruction that will empower and advance their magical practice. Praise: "Frater U D writes from a background of extensive practical achievement and theoretical knowledge to present a book of magical techniques for those who dare to use them."
