Bodies of Light' by Lisabet Sarai Love travels faster than light. Physicist Dr. Christine Monroe has devoted her lonely life to research on hyper-space travel. Her continued failure leads her to sign on to the Archimedes, a sub-light-speed mission aimed at establishing a colony in the Sirius B system. Waking from suspended animation, she discovers that the ship is wildly off course and the rest of the crew are dead due to equipment failure. At first she thinks the two handsome strangers who show up on the ship are figments of her imagination - erotic hallucinations created by isolation and stress. However, Alyn and Zed are solid, real, and ready to sacrifice their lives for the strong woman they've found stranded in deep space. As her ship begins to disintegrate, Christine must choose between the planet she was sent to save and the two alien beings she's come to cherish. Reader Advisory: This book contains mÃfÂ©nage and anal sex. 'The Sevarian Way' by Justine Elyot In space, no-one can hear you scream. So you can spank as hard as you like. Commander Azed Paul and Ensign Suka Demontel are space anthropologists in a future civilisation where kink is illegal. Both have learned to repress their natural sexuality, but Suka's undergraduate work on the ancient practice of BDSM has captured Paul's professional attention, and his less academic interest too. This makes her the perfect crew member to accompany him to the surface of Paladium Three, a dead planet where old-fashioned service and discipline were woven into the fabric of life. There might not be any life forms left there, but what Paul and Suka discover is fascinating evidence of a culture that both realise might have suited them very well... The temptation to experiment, risk-free, with the kinks they have been denied all their adult lives, proves too much for the space explorers and they give their fantasies free rein. But will this be a unique, never-to-be-repeated experience, or will Paul and Suka find a means to fully embrace the Sevarian Way? Reader Advisory: This book contains BDSM 'Europa Europa' by KS Augustin The Company appreciates its genetically modified humans... as long as they don't get any smart ideas. Salvia is a genetically modified human, at home in the oceans of Jupiter's moon, Europa. Intelligent, young, lonely, she demands that the mysterious "company" that employs her send a companion or she'll never work for them again. With no choice, the company creates Rhus, a young brash male. But a relationship that begins with mistrust ends up forging deep links between the

pair and they look forward to a happy life together. Unfortunately, Salvia's tactic of holding the company to ransom was not well received. While they may have introduced Rhus to Europa, the company are mulling over other options. Options that include the very real possibility of death for Salvia. Or Rhus. Or both.

Reader Advisory: This book is best read in a hot-tub! Preferably, with some company. Star Struck' by Buffi BeCraft Smart girls know two things. Don't pick up hitch-hikers and avoid dangerous men.

Down-on-her-luck trader captain, Drew Roberts' fascination for dangerous men is equal to her need for a crew. But a girl's gotta do, what a girl's gotta do-And getting back at her rival, the kith Captain Larissa by taking these two on, seems like a pretty good idea at the time. On the run, Ashwin and Kormec, know that the best way to avoid a political marriage is one of another kind. Is Drew Roberts 'the one' for them? Can she survive an encounter with Ashwin's mother, the fierce Captain Larissa? The three of them may generate enough heat to power a sun, but question is, will they survive it?
