Well, I hear you. Truth is, I've read more than a few of those rehashed BS ridden ebooks myself. Before my online business took off, I was just as desperate as you to quit my day job I read just about everything I could get my hands on MY Every single credit card bill I got showed masses of payments to all different online sites, buying ebooks, tuition courses, memberships to exclusive sites, all kinds of junk Yes, I was THAT desperate to get some kind of financial freedom and never have to sit in that rush hour traffic ever again And that's what prompted me to create Clickbank Results. Once I started to see some success myself, I got real tired of hearing the gurus telling everyone how easy it is to become a Clickbank success. In all honesty, unless you know the secrets and shortcuts I'm going to teach you, it's very tough to become successful with your own products Answer me this: Do You Honestly Think That An Average Joe Can Compete With A Bunch Of Millionaires Throwing Money At A Niche Some of the successful vendors are already millionaires, they have huge departments of marketers and programmers at their disposal how can you compete with that? You can't. It's as simple as that. But you would be able to if you knew the stuff inside Clickbank Results. It's that powerful Think about this for a second how much would you pay someone to put your product at the top

of the marketplace in Clickbank? \$500? \$1500? \$5000? Even that would be peanuts compared to what you'd be making. Let's say you're selling a \$47 ebook that converts at just one single tiny percent. And being at the top of the Marketplace is giving you about 1500 unique, targeted visitors alone, from your legions of affiliates. That's 1500 every day, 24/7 365 days a year. That's 15 sales @ \$47, per day 15 sales each and every day would be making you over 700 bucks each and every day. That's over \$250,000 a year. Hardly chump change is it? True, you'd have to take your affiliates' commissions out of that, but say you're paying them 50...that still leaves you with \$128,662 to play with, each and every year for doing nothing. Because the affiliates are going to take care of it all. But that's not even the best part. Smart Affiliates Know Exactly What It Takes To Direct Traffic That Converts, So Your One Or Two Percent Page Could Suddenly Be Converting Visitors At 7 or 8. Imagine what that would do for your bottom line. You're suddenly making thousands of dollars every single day, hundreds and hundreds of thousands of dollars per year. And it all started from getting your little product listed at the top of the Clickbank Marketplace. So right about now, even paying someone \$5000 to put your site up there would be a no brainer, right? Well, sorry, I can't offer to put your site up there for you, I'm too busy for that, but I can let you learn how to do just that from my book, Clickbank Results. And I'm not going to charge you anything like \$5000. Or even \$1000. In fact, I'm not even going to ask you to pay \$100 for it. It's worth much, much, more, but I'm actually going to give it to the next 17 buyers for \$27! Yes, you read that right, \$27 for the whole deal. If you already own a product that's on Clickbank, you could have it listed at the top of the marketplace by tomorrow, for less than the price of a pizza and a couple of beers. Didn't I tell you it was a no brainer? But if you're still sitting on the fence, check out this guarantee: Remember, only the next 17 16 buyers get this fantastic deal, then it's going to revert to the regular price of \$77. This is a brand new product, and I wanted to make sure the first few copies went fast so I could get some customer feedback, and that's why you are looking at making a whopping 64.9 saving! But you'll only get it if you act right now - these are going like hot cakes, so get yours while you can.
