

Image Processing And Communications Challenges 4

[DOWNLOAD HERE](#)

This textbook collects a series of research papers in the area of Image Processing and Communications which not only introduce a summary of current technology but also give an outlook of potential future problems in this area. Image Processing and Communications have undergone an impressive development. Recent evolutions in this area have led to a pervasive spread in many areas of human life and have become such a critical component in contemporary science and technology. The book is divided into two parts. The first part contains recent research results in image processing, whilst the second part contains recent research results in communications. EAN/ISBN : 9783642323843 Publisher(s): Springer, Berlin Discussed keywords: Bildverarbeitung, Telekommunikationsnetz Format: ePub/PDF Author(s): Choras, Ryszard S.
