

Living In A Warmer World Ebook - Jim Ollhoff

Living in a Warmer World describes what would happen if the earth's temperature were to rise by a few degrees and how humans and animals would have to adapt. Six degrees is all it takes to cause massive flooding, decreased forests, growing deserts, farmland loss, major hurricanes and storms, animal extinctions, and disease. Facts, myths, and modern solutions are presented in clear, age-appropriate language. Readers learn what is being done to protect and live in the world of the future.
