

Mp3 Anita Kruse - Creation Flight

[DOWNLOAD HERE](#)

A mystical, pure, and powerful musical storybook that combines contemporary spirituality, strong vision, and inspired performances into a completely unique blend of classical, folk, modern, and pop celebrations of life. 12 MP3 Songs NEW AGE: New Age, FOLK: like Joni Details: Creation Flight is a personal journey of discovery - both the discovery of my ancestral roots through my mother's mother, and the discovery of my connection to all women through the ancient mother goddesses. It is my personal honoring of the creative energy that flows through the mother line. All songs on the album were written as gifts for women in my life - some were inspired by dreams and others evolved after great losses - the losses of friends' children and in my mother's case, the loss of her mother in childhood. Creation Flight is a celebration of new life, especially new life that emerges from the darkness of death. It is a celebration of those things that are eternal - love and spirit, and is an honoring of all that grows in the dark and all that is born into the light. Anita Kruse CREATION FLIGHT Anita Kruse Produced and Arranged by Robbie Parrish Purple Records A composer and classically trained pianist, Anita Kruse is that rare combination of visionary artist and powerful, inspired performer. She writes songs from her heart, telling stories sure to resonate with many. Kruse describes Creation Flight as a personal journey of discovery. Each song was written as a gift for women in her life, including her mother and grandmother. The songs are filled with hope, grief, joy, wonder, sadness, and more than anything, celebration. The piano-based melodies on Creation Flight have infectious pop hooks and mid-tempo rhythms. Instruments include flute, keyboards, accordion, bass, guitars, bodhrans, and percussion. In addition to Kruse's sure hands on the piano, she sings with eloquence and conviction. Creation Flight is a wonderful gift for that special someone, beginning with yourself. The 20-page, full-color tray booklet contains complete lyrics and gorgeous photos of Kruse in natural settings. Creation Flight is a treasure for the heart. Steve Ryals New Age Retailer October 1999 I

believe we all have a unique reason for being on this planet at this time. Creation Flight explores the generational energies that have led us to today. It is an album inspired by women in my life, but intended for any listener who came into this world through a mother..... It is a confirmation that we carry in our genetic makeup, the creative energy to express our unique message with those around us, in our daily lives, and now through technology, with a larger audience. Creation Flight is an album about empowerment in the deepest sense...as a birthright. We are the living ancestors, with the energy from all that has come before us...working through the blood. I have no doubt that we live, love, breathe and create with the endless guidance and blessings of our ancestors. Anita Kruse June 6, 2001
