Modern Rock, Classic Roll 11 MP3 Songs ROCK: Modern Rock, POP: Power Pop Details: Binaural is a high-energy rock band from western Massachusetts who's sound has been described as modern rock with classic roll. The band's approach to guitar driven rock and melodic vocals shows their roots from yesterday's heroes like Led Zeppelin, Aerosmith, and Jimi Hendrix to today's modern icons like Fuel, Nickelback, and 3 Doors Down. This quartet has been playing together since 2002, and is currently based out of North Adams, Massachusetts. Their individual diverse tastes and influences have sculpted what is the underlying tone of Binaural's present sound. Greg Caproni carries a front man persona as a lead vocalist, while providing a Malcolm Young like foundation with his rhythm guitar expertise. Brandon Rougeau's old school straight approach to lead guitar is reminiscent of the likes of Jimmy Page, Slash and Joe Perry. Harvey Shepard's solid bass playing and sense of humor combined with Eric Norton's steady approach to modern rock drumming, gives the band exactly the feel it needs to properly spread their word. This foursome has tirelessly built a legion of followers throughout the years from sheer hard work and a steadfast determination to succeed. Binaural has shared the stage with many notable artists and is looking forward to many more years of recording and live performances. They are self described as four very different individuals who walk four incredibly different paths that ultimately lead to same final destination."
