These songs are songs of devotions, prayers and praise. The melodies contain Gods word, and are spirit-soothing sounds and the most important part of these songs is the message. 12 MP3 Songs

GOSPEL: Contemporary Gospel, SPOKEN WORD: With Music Details: April 2005 Marjorie was diagnosed with Fibermyligia. This condition was changing Marjories life. Being continually in pain she had no ideal how she would continue working. Quality of life was quickly fading away. She asks the Lord to heal her. She prayed to him continually concerning this issue and after about a year of enduring pain, the Lord spoke to her, He told her to put the Word of God to music and that he would heal her body in the process. In obedience to the Lord, Marjorie presenter the task to an anointed musician and man of God; his name is Joseph Giundry, and because prophecy had went forth regarding his music and that it would heal, he agreed and so they began this journey, a journey that would create music that will not only heal your body, and cleanse your heart as it has done for Marjorie, but sooth your mind and bless your soul. This project is dedicated to every soul that is longing to know God; it is delivered to every individual that is in need of healing of mind body and soul. This project is God's plan and all Glory belongs to Him; He filed our tongs and touched our hands.
