Details: Oszilla is a project of the German producer of electronic music Andreas Weber. Andreas has been drawn to music since his childhood. At the age of six, he was taught to play the piano by his grandfather. Then, at the age of 14 he bought his first synthesizer, the famous 01/Wfd KORG-Workstation. One year later he joined the German psytrance scene. During the following years he did several gigs around Europe. In 2003 he released his first album "Return To Neverland" on Insolation Records. That record rocked trance parties all over the world. In 2004 Oszilla released some tracks on various compilations and in the first place concentrated on finishing his diploma as an audio engineer. In early 2005 he passed his exam and started to produce music again. In December 2005 his 2nd album "Twisted Reality" will be released on Karavena-Records. I'm sure, it will rock you again!
