Twists and turns through rhythmic Indian modes and melodies atop an exquisite layer of loops and arrangements with a hint of electronica. 8 MP3 Songs WORLD: World Fusion, ELECTRONIC: Trance
Details: Dark, pulsing and uplifting describes Solace's 5th CD, which fuses classical Indian vocals and tabla with heavy rhythmic club/dance elements. Part 1 of a 3 part series takes us into the depths of our conscience, while twisting through rhythmic Indian modes and melodies atop an exquisite layer of loops and arrangements with a hint of electronica. Satya was influenced by the music of DJ Cheb i Sabah, especially the track "Ganga Dev" from Shri Durga. Although nothing like Shri Durga, Solace is able to capture the subtleties and textures that compliment the art of fusing Classical Indian and Trance.
