

Optical Guided-wave Chemical And Biosensors li

[DOWNLOAD HERE](#)

Waveguide Sensors with Periodic Structures: Nanostructured Silicon Optical Sensors.- Resonant Waveguide Grating Biosensor for Microarrays.- Resonant Bio-chemical Sensors Based on Photonic Bandgap Waveguides and Fibers.- Nanophotonic and Subwavelength Structures for Sensing and Biosensing.- Optical Fiber Sensors: Fiber Optic Chemical and Biosensors.- Applications of Fiber Gratings in Chemical and Biochemical Sensing.- Hollow Optical Fiber Probes for Biomedical Spectroscopy.- Hollow Waveguide and Micro-Resonator Sensors.- Capillary Waveguide Biosensor Platform.- Label-Free Optical Ring Resonator Bio/chemical Sensors.- Terahertz Biosensing: Terahertz Biosensing Technology: Progress, Limitations and Future Outlook. EAN/ISBN : 9783642028274 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Zourob, Mohammed - Lakhtakia, Akhlesh
