

Predict Lotto 644 Winning Numbers - Excel Lottery Software

[DOWNLOAD HERE](#)

Lotto 644 Prediction Method (Excel Program File) New Addition! This program is an easy to use lotto 6/44 prediction method that can increase the probability of selecting the winning numbers for the next draw. For those who play the lottery in Connecticut, Missouri, Tennessee, Arizona, Illinois, Louisiana and also in Australia. It is based on the intervals of the numbers. The number of draws between two appearances of the same number. As an example suppose the number 1 appears after 7 draws, we would write 7 as the first number of the sequence, and then the same number 1 plays again after another 10 draws, we would write 10 and so on. Using this method we can build the sequence of intervals for the number 1, it would look something like this: 7,10,30,3,10,7,5,2. The goal was to obtain a mathematical equation to build an intervals curve using a linear sequence of numbers that we already know, using these values we can calculate the best statistical fit along the curve using the interval numbers from the lottery. For example, using a linear sequence from our above sample for the number 1 you would have 1,2,3,4,5,6,7 then 1,2,3,4,5,6,7,8,9,10 and then 1,2,3,.....29,30 and so on. A lot of time was spent, analyzing the databases of the 6/44 lottery, searching for a suitable equation in order to reproduce all interval curves for the 44

numbers. The programs algorithm applies to all international 6/44 type games only. The bonus number is not included in the calculations. Draws can easily be updated and added manually after your purchase, you do not have to download updates. Since this program is suitable for any international 644 type lottery, please be sure to input a minimum of 200 draw entries for your lottery in order to ensure forecasting accuracy. The program is not password protected so it can be fully edited to suit your requirements and the data can be imported into other statistical programs for further analysis if you so wish. Instructions for use are also included with the file. I have won a lot more substantial secondary prizes than I ever have since I first developed this program originally for the Lotto 649 back in 2008....and which I continue to refine and test to this day for other lotto formats such as the 6/44 as well. I am an Electronics Engineering Technologist and I have had an interest in statistics and the lottery for the last 20+ years now. I think of it as a hobby with benefits...if I get it right...and I do feel that I have something here. Your welcome to try my method for yourself. In any case..whichever method you choose to play the lottery...I Wish You The Best of Luck!!!. Feel free to contact me if you have any questions. For more screenshots you can visit my summary page here: predict649.weebly.com/ Best Regards, Edward Poort Page last updated: Wednesday May 15, 2013.
