Canvas is our most ambitious theme to date! Every element of Canvas is highly customizable through our options panel, so you can make the design, layout and typography exactly like you want. If you are after a highly customizable blog design or just a starter theme for your next client project, then Canvas will most definitely work for you! Customize any element Canvas will let you customize the style and typography of every element in the design. Packed with 100+ options, it allows you to make your blog look exactly like you want! Google font support You can change any text on your site to the font of your liking, and also use the awesome Google Font to go beyond those standard web-safe fonts. Use your own images in design The options panel lets you upload your own images for use as main background image and header background image. It's never been this easy! Easy to change width Canvas lets you easily change between 6 different site widths (1200, 980, 960, 940, 880 and 760 pixels) and also has an option to box your layout in. Change your layout You can also choose between 6 different layouts for and order of content/sidebars (full width, 2 col left, 2 col right, 3 col left, 3 col middle, 3 col right). Canvas also lets you specify individual layouts per post or page! Magazine and business page templates Canvas features a Magazine and Business page template, both with javascript sliders so now you can easily setup your homepage to act as a magazine or business theme. Portfolio module Canvas comes with a portfolio custom post type where you can showcase your latest projects, designs, or even product images. A dedicated page template showcases your portfolio with a category sorter and lightbox pop-up functionality for ease-of-use. Tumblr functionality with iPhone App publishing! NEW! Canvas now supports

WooTumblr functionality so it can function like a Tumblr theme, and you can use our new Express iPhone App to publish to your Canvas powered blog! Custom widgets The theme has 2 widgetized areas in sidebar and 4 widgetized areas in footer (optional), and also some extra Woo custom widgets (Woo Tabs, Flickr, Twitter, Adspace, Search). Child theme friendly Canvas is the first theme from WooThemes that has made use of custom hooks, which makes it a lot easier to customize the theme via a child theme without touching any code in the main parent theme. Download our sample child theme Fresh Canvas to get started. All themes sold at nichemasta.tradebitfall under the gpl license. Which states you can sell or give these away. Buy with confidence!
