Pop rock, plain simple. Great College Rock. 12 MP3 Songs POP: Today's Top 40, ROCK: 90's Rock
Details: After a long first year of practices a few new members, Victor (drums, backing vocals) Scott (lead vocals, guitar) found themselves right back where they had started. Back to just the two of them. Finding Matt (bass) right under their noses, teaching him the material quickly helped to spark a whole new list of show dates that the band played as a "power trio". Knowing that the dynamics of the music needed a second guitar, they contacted a new face to the state of Illinois. Ryan (lead guitar, backing vocals) as some of our closest fans would say "...was a great addition, he really makes the music sound full again." Long practices, strict dedication, an ever-growing friendship keep this band tightly wound in shape. Victor's hard-hitting style, Matt's melodic bottom end, mixed with Scott's dynamic vocals, pop guitar riffs Ryan's break through guitar solo's and diverse style of playing have gained this band a local following and a unique pop sound while staying true to it's first goal of one hundred percent pure, straight up rock roll.
