Absolutely beautiful. Time is taken to develop the movement, which flows lyrically along with great moments of dynamic phrasing. Some excellent piano playing here folks. Technique that allows one to play from the heart, instead of struggle with notes! This is a charming and inspiring work that I would not suggest missing... a fine piece of

composing and music! BRAVO!" LuiGentile - Connecticut, Germany "Wonderful! From the start the piano jumps right out at you. This is a well done, beautifully orchestrated masterpiece. The changing melodies are outstanding. So many emotions run through you while listening to this one. Too many to describe. Have a listen yourself. I'd give it a 10 but the scoring system only allows 5. Great piece of music!"

Stunning keyboard composition! Hard to put down in a box, but would fit in the contemporary classic new-age genre. Probably the best keyboard score I have yet to hear on garageband.com."
