This is the first solo acoustic guitar project from Josef D and is played from the heart with passion and a unique mastery of the acoustic guitar. The music itself consists of seven melodic pieces which surprise and transport you the listener to a differ 7 MP3 Songs WORLD: Flamenco, NEW AGE: New Age Details: My Music On my first solo album "Beautiful Guitar" there are seven melodic meditative pieces for you, the listener, to chill out to; technically involved but at the same time accesible. There are many musical elements to this album but if you have to put it into a bag I suppose flamenco could be an appropriate description for parts of it, as would classical and jazz.The album is just under one hour long. Anyway, I really felt like playing that day and I hope it's received in the same way it's given....with heart. sincerely, JosefD. It appears that people who buy my album are using it for romantic interludes!....very naughty people indeed !...but having said that, the music does have plenty of passion so i'm really happy that it does the trick as it were , for all the lovers out there ! It has also been mentioned to me by many people that they use it for relaxational purposes...they simply just sit back ,...maybe late at night and go on some journey somewhere and that's just what it's all about!...It's really great to get all these kind words about your music especially if it's beneficial in some way to you the listener. Thank you all, JosefD Please read the review below .
