Southern Rock 7 MP3 Songs COUNTRY: Country Rock, COUNTRY: Modern Country Details: The Kings Wild Band members all grew up in the 60s surrounded by great music and each of us played in various different bands thru the following decades. Eventually we all succumbed to the pressures of work and family to put playing music on the back burner of life. A few years ago in a collision of fate, we all got the itch to play seriously again and came together over time in our current line up. Clyde and Paul started writing original songs together several years ago and tried to put a band together. Calling on long time friend and Drummer/Vocalist Caz who had played with Clyde in several other bands. Then after other attempts to find the right musicians Mike, who grew up in England in the 60s, joined playing Guitar with his unique perspective. Mike then brought Drew in to play Bass, Keyboards and engineer the recordings, previously a recording engineer in NYC for 15 years. Lastly Clyde called on his one time band mate Jim, who played Pedal Steel, Dobro and Guitar as a Nashville session player and in various original bands. Together each member of the band is a multi instrumentalist switching off on drums, bass, guitars, keyboards and vocals. We enjoy playing music with a strong melody line and melodic instrumental parts all supporting the song. We hope you enjoy our songs and we want to bring you a lot more good music in the future.
