Rock and roll in the 60's folk psychedelic vibe with emphasis on lyrics and melody. 17 MP3 Songs POP: with Live-band Production, ROCK: Psychedelic Details: Pan's "Pandemonium" CD was released in the summer of 1998 featuring current Pan members Cassandre on percussion and singer songwriter Chris Launois and former members Brian Tracy on drums, Tommy D. on guitar, Yuji on bass, Joseph Briggs on Keyboard and River on harmonica. "Pandemonium" with 17 tracks and all the lyrics printed in the album jacket was recorded in Power Music Studios with the band playing live, giving it the live rock and roll feel of folk psychedelic rock from the 60's with a contemporary vibe. The album is dedicated to Chris' close friend and poet Pauline Duval who lost her life at the age of 22 in 1998. Four of the songs were written for her though she didn't have the chance to hear them. Regardless, love for Pauline lives on in the songs of Pan.
