

## Mp3 Rikard - Reflections

[DOWNLOAD HERE](#)

Contemporary world music 15 MP3 Songs WORLD: World Fusion, NEW AGE: New Age Details: BIOGRAPHY In 2004 composer/ producer RIKARD releases "REFLECTIONS" ; a state of the art blend of mystical dreams with a very intense dose of dramatical musical momentums. RIKARD developed a strong reputation as a contemporary pianist and composer in Europe and has decided to bring his piano music to America with a new proposal that finally results in a very refreshing balance of modern and formal orquestration. When you listen to his last production"REFLECTIONS", you can sense immediately a clear influence of an undeniable European classical training acquired by him at prestigious universities in France and Austria, but the more you get into the music, the more it becomes a conceptual experience which recreates RIKARD'S imaginative flow with new sounds and a very contemporary orchestral concept. It's obvious how the composers oniric world and his self-acknowledgement bind intimately, placing his music as a very suitable audio experience with mixtures of different genres but with a very deep musical content.
