The best example of contemporary classical music. Performed live by a Symphony Orchestra and Choir. 12 MP3 Songs in this album (51:44) ! Related styles: CLASSICAL: Mozart, WORLD: Mediterranean People who are interested in Ludwig van Beethoven Vangelis Wolfgang Amadeus Mozart should consider this download. Details: The recording of this album was made on Friday, October 19th 2007 at the Poly Theater in Beijing, China. The concert was part of the inaugurating ceremony of the 2008 Cultural Olympics, leading up to the Beijing Summer Olympic Games of 2008. It consisted of some of the most well known pieces of music by Stamatis Spanoudakis, but, most importantly, it included brand new musical compositions, which were specially created for the concert. Most of these compositions were later re-recorded and released on the album Alexandros II, Paths You Never Walked. However, these live recordings portray the compositions in their true, original form since these were (as always) arranged for the orchestra by the composer himself. The fact that the composer himself participated in the Orchestra (on keyboards, guitars and bouzouki), is of particular importance.
