Are you tired of searching for the fountain of youth? Well, look no more. In this book, Nevada medical oncologist Dr. James Forsythe, one of the worlds leading anti-aging experts, reveals how to slow and even reverse the aging process. Based on meticulously researched clinical evidence, this book provides an account of revolutionary anti-aging treatments that can prevent the health conditions associated with getting old. The key to youth, good health, and vitality as we age comes from our bodys Master Hormone that naturally produces human growth hormone (HGH). As we advance in years, the body produces less and less of this vital hormone and we begin to see and feel symptoms of the aging process. By rejuvenating the Master Hormone gland using a range of safe and natural Bio-Stimulators, as this book shows, we improve the quality and duration of the human lifespan, prevent heart disease and obesity, and maintain optimal health as we mature. The medically documented and proven benefits include: loss of body-fat mass, improved skin texture and tone, improved bone density, improved libido and sleep quality, and much more. Dr. Forsythe, who wrote the official United States government protocol for administering growth hormone to fight aging, describes how readers can harness the power of Bio-Stimulators safely, legally, and naturally, to combat the ravages of aging. The book also describes simple ways to release more growth hormone in your body by using combinations of everyday foods, exercise, and quality sleep. Backed by firm medical science evidence, Anti-Aging Cures will teach you how all of these natural cures for aging work their magic on the human body.
