No overdubs, no edits, RAW. Like conventional farming, our belief is that the creation of music has become overproduce, poisoned by progress and ignores where we have come from. Organic farming is not new, it has just been rediscovered our music is the same. We are not doing anything new just reminding people of our American musical history and folding in our unique Sonoma County perspective. The Green String Farm Band was born on a single day of live recording in a 1900's School house on the farm itself. We chose original and traditional material with the grand plans to make people happy. The music is to be enjoyed on the back porch, in the living room, with friend and callused hands with drink and home cooked food. This is rough, real and to be sung out loud together. Gio Benedetti- Bass Arann Harris- Acoustic guitar/ vocals Nick Rupiper- Drums Chris Vibberts- Electric guitar/ banjo/ lap steel Chad Manning- Fiddle/ mandolin Mike James- Electric guitar
