Some of our most requested songs are on this album 12 MP3 Songs GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel Details: Well let me start by saying that this album is just what the title says it's a collection of songs that we recorded down through the years, about 5 years of work and we've shared them with family and friends over the years and they were all truly blessed by them and we feel it's time to pass them on so that others may be blessed also . We are The Lahmon's Contemporary Gospel Family and within the family we have many talented singers songwriters rap artist as well as musicians at the moment we're not seeking a major lable deal or anything like that And I'm not saying that to discredit us in any way because I strongly beleive that The Lord has blessed us with just as much talent as any one of the major gospel atrist out there today .we're just waiting on God to open a door for us but in the mean time we're just happy to be able to share some of our songs with others.
