A wonderful collection of of New Age, Easy Listening music. The powerful yet pleasant movements of these compositions will bring to life your imagination's most tranquil place. Truly a memorable listening experience. 12 MP3 Songs NEW AGE: New Age, EASY LISTENING: Background Music Details: In my early teens I studied and gained a real appreciation for the less appealing side of music "structure and theory". I satisfied my musical craving by playing and arranging for various bands, while always enjoying a portion of my passtime at the keyboard experimenting with my own music. From Rock to Classical, music is a universal language, and it has no boundaries, and no limitations. I play and write what i feel, without much consideration to style, and I allow myself the total freedom of musical expression. As the author of this music, I have tried to express a capsule of simple feelings and emotions. From a dramatic sunrise (The Dawn) to a peaceful shore (Waves) you have the freedom to make the content your own, and whatever your interpretation, I hope you find it inspiring and memorable.
